

# Volunteers needed for emergencies

By Amanda Miller  
amiller@nwkansas.com

The Northwest Kansas Community Emergency Response Team is seeking volunteers to serve on a new Community Emergency Response Team.

After the floods in Colorado last year, many residents of northwest Kansas were calling, wanting to know what they could do to help. Organization was key, and if something similar happened here, having a system in place would benefit the community.

Ryan Murray, Emergency Management Director, said that he saw a need for volunteers that could assist the firefighters, emergency medical personnel, and emergency management team during an emergency. The first responders will have a lot of duties to perform during an emergency. A separate group of volunteers to assist the first responders, in an organized fashion, would be beneficial.

That is when Cheyenne, Rawlins, Sherman, and Thomas counties collaborated. Mr. Murray is the Emergency Management Director of Cheyenne, Rawlins and Sherman county. Thomas county also liked the idea of the northwest counties working together in the event of an emergency, and came on board.

The counties submitted a grant project to the Kansas Citizen Corps to establish a Community Emergency Response Team (CERT). This is the first plan of action of its kind, and the state of Kansas is using northwest Kansas as a model, Mr. Murray said.

They were notified that the Kansas Division of Emergency Management, Kansas Citizen Corps, and Kansas Highway Patrol awarded the grant to fund development of the joint training program. The grant money provided will fund all the training and necessary expenses so that the counties do not incur them.

The Community Emergency Response Team Program provides basic emergency and disaster preparedness instruction to community members through its introductory training class. The CERT introduction class is approximately 20 hours, and is free. Everyone can benefit from learning to be better prepared for an emergency or disaster.

Following a catastrophic event, such as a flood or tornado, residents may be called upon to assist with local emergency services to help protect the community.

Those selected to serve on a local CERT team will receive continuing training that will equip them to be able to assist local emergency responders. The training covers basic skills that are important to know in a disaster, when emergency services need help. With training and practice by working as a team, volunteers will be able to do the greatest good for the greatest number of people after a disaster, while protecting themselves from becoming a victim.

Basic emergency and disaster response skills training will include fire safety, light search and rescue skills, team organization, and its function within the emergency response model, basic emergency medical care and disaster medical operations, and community disaster recovery support.

Northwest Kansas Community Emergency Response team welcomes all members of the community who are interested in helping serve those in need.

Volunteers are needed to join the CERT program. Stacy Kaup and Randy Nelson will be team leaders in Cheyenne county. Jordan Riley is the team leader for Sherman county, and David Becker is team leader for Thomas county.

If you would like to join, or are interested in additional informa-

tion, please contact Stacy at the Cheyenne County Emergency Management office, 785-332-2560, or email her at daskaup@gmail.com.

She will be more than happy to assist you and/or put you in contact with one of the leaders.

## Woman receives huge birthday surprise

"Surprise!" is exactly what Joy Anderegg felt as she entered Big Ed's the evening of Jan. 11. She was expecting to be treated to a birthday dinner by her daughter Sheila and her husband Terry Hilt, of St. Francis, but what was in store was an even bigger treat. Joy was greeted at Big Ed's by her five children, 10 grandchildren, and four great-grand children for a surprise birthday party. Joy and her family enjoyed steaks, laughs, and stories. They ended the evening with raspberry cake, hugs, and precious memories. Joy feels spending time with her family was the best birthday present she could have received.

In attendance: Harold and

Christy Tygart of St. Francis; Larry and Cathy Tygart, Chris and Mary Gascock of Denver; Sheila and Terry Hilt of St. Francis; Dana Clendenin of Bird City; Rachel Tracy and her friend Chris of Denver; Derek Vella, his wife Jocelyn and their daughters Madison and Avery of Greeley, Colo.; Aaron Tygart of Dallas, Texas; Alé Lorimer and her husband Eric of Shawnee; Danielle Waite of Denver; Adam Tygart and his wife Nicole of Manhattan; Andy Waite, his fiancée Betty and their son Anderegg of St. Francis; Killy Lampe and her daughter Billeigh of St. Francis; and Matthew Tygart and his friend Melanie of Dallas.

Ted Glasco and Melodie Bock

## Couple announces their engagement

Melodie Jean Bock and Ted D. Glasco are announcing their engagement. They are planning an Oct. 4 wedding at Living Water Fellowship, Bird City.

The daughter of Charley and Roberta Bock, Cawker City, Melodie is a graduate of Waconda East High School. She holds a bachelor's degree in Biology from Fort Hays State University and a biblical degree in youth ministry from Victory Bible Institute, Tulsa, Okla. She is currently working on her master's degree in school

counseling. Melodie is a high school biology teacher in Norton.

Ted is the son of Lynn and Candy Glasco, Bird City. He is a graduate of Cheylin High School. A Lieutenant Colonel in the U.S. Air Force, he holds a bachelor's degree in computer science from Kansas State University and a master's degree in Aerospace Science from Oklahoma State University. He is stationed at the Pentagon in Washington, D.C., and is currently deployed to Afghanistan.

## Conservation services offer initiatives program

Salina, Kansas, Jan. 6, 2014 Eric B. Banks, State Conservationist with U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) announces three National Initiatives being offered in Kansas through the Environmental Quality Incentives Program (EQIP):

On-Farm Energy, Organic, and Seasonal High Tunnel.

While NRCS accepts applications for EQIP on a continuous basis throughout the year, there will be two sign-up periods, with cutoff deadlines of Feb. 21, 2014, and April 18, 2014, for the On-Farm Energy, Organic, and Seasonal High Tunnel Initiatives.

"We encourage our producers to take advantage of the conservation opportunities being made available to them through these EQIP Initiatives," Banks said.

Initiatives Overview

**On-Farm Energy Initiative:** Producers work with an NRCS-approved Technical Service Provider (TSP) to develop Agricultural Energy Management Plans or farm energy audits that assess energy consumption on an operation. NRCS may also provide assistance to implement various recommended measures identified in the energy audit through the use of conservation practice standards offered through this initiative.

**Organic Initiative:** NRCS will assist producers with installation of conservation practices on agricultural operations related to or-

ganic production. Producers currently certified as organic, transitioning to organic, or National Organic Program exempt will have access to a broad set of conservation practices to assist in treating their resource concerns while fulfilling many of the requirements in an Organic System Plan.

**Seasonal High Tunnel Initiative:** NRCS helps producers implement high tunnels that extend growing seasons for high value crops in an environmentally safe manner. High tunnel benefits include better plant and soil quality and fewer nutrients and pesticides in the environment.

**Eligibility**  
EQIP offers financial and technical assistance to eligible participants to install or implement structural and management practices on eligible agricultural land. Conservation practices must be implemented to NRCS standards and specifications. In Kansas, socially disadvantaged, limited resource, and beginning farmers and ranchers will receive a higher payment rate for eligible conservation practices applied.

**Information Available**  
For more information about EQIP, or other programs offered by NRCS, please contact your local USDA Service Center or go to the Web site [www.ks.nrcs.usda.gov](http://www.ks.nrcs.usda.gov). Follow us on Twitter @NRCS\_Kansas.

USDA is an equal opportunity provider and employer.

## Trees for Sale

The Cheyenne County Conservation District will be taking orders for trees and shrubs until mid-March.

Order early to guarantee availability. Anyone may order in any amount. Trees will be available for pick up on Saturday, April 12, 2014, from 8 a.m. to noon.

We also sell heavy duty fabric weed barrier and drip supplies for your wind-breaks, gardens or landscaping projects. Stop by the office on West Highway 36, St. Francis or call 785-332-2341 ext. 101 to order your trees
