### Thank You

I want to thank all my children, friends and neighbors for attending my 90th birthday, for the lovely flowers and cards, also the special music by Beth Kelley. I will always remember. Bless all, Nettie Hamala

I'd like to thank everyone who has wished me well since I became ill. The number of cards amazed me and cheered me everyday. My co-workers at school need a big thank you for all the meals they brought in and for checking on the boys. To neighbors, friends and family thank you for all the goodies or good deeds that would just appear at our doorstep. All was appreciated! A large thank you must also go to the entire hospital staff - you people are the best! And last but not least I need to thank my own family for pulling through this with me. Sincerely, Becky McAtee

Thank you to Larry Finley and John Guthmiller for being our coaches this past C-Team baseball season. We appreciate all the time you set aside for us. Thank you especially for taking us to see the Sky Sox play. We really had a great time. We may not have finished the season in first place, but to us, you guys are first-rate coaches. Thanks! (b) **Type of Fences.** For the purpose of this article there are four types of fences which have the meaning respectively ascribed to them as follows:

(1) **Open Fence** - A fence in which openings between the materials of which the fence is constructed represents no more than 40% of the total surface of the fence when viewed perpendicular to the face of the fence.  
(2) **Solid Fence** - A fence that is impervious to light and air and constructed so that there are no openings in the fence from the top to the bottom of the fence material  
(3) **Visually Solid Fence** - A fence that is so constructed which is not a solid fence in that it is not totally impervious to light and air but when the fence is viewed from a position perpendicular to the face of the fence the openings are not visible.

(4) **Decorative Fence** - Installed as part of landscape improvements without gates and no more than four feet in height. Not designed as a barrier or to enclose, or to keep in or out, as is the common intent and purpose of a fence.  
4-1002. PERMIT REQUIRE  
(a) The applicant for a building permit for the construction of a fence shall be furnished with a copy of the fence regulations and applicant shall classify the fence proposed to be constructed by the types listed above. Such fence permit is subject to the applicable regulations and restrictions for the type of fence specified.  
(b) It shall be unlawful for any person to construct or substantially replace any fence within the city, unless a building permit to do so is first obtained from the Governing Body of the City of Bird City, Kansas. The owner of the property, or his or her duly authorized agent or contractor shall present a written application for such permit, on forms furnished by the city, to the Governing Body of the City of Bird City, Kansas, in which application there shall be set out the legal description of the property, a plot plan showing the location of the fence in relation to property lines, the name of the owner, the name of the agent or contractor, if any, and the plans and specifications of the fence proposed to be constructed. Such fence shall be constructed only on property described in the application presented to the Governing Body of the City of Bird City, Kansas.

4-003. RESTRICTIONS, GENERALLY

(c) No fence shall be permitted within the sight distance triangle established for street intersections. For the purpose of this article the prohibited fence area (sight distance triangle) is defined as the triangular shaped property at the corner of a street intersection. Two sides of the triangle shall be 20 feet measured from the corner of the lot along the lot lines abutting the street and the third side is a line across the corner of the lot joining the ends of the other two sides.  
(d) Barbed wire fences, sharp pointed fences, electrically charged fences, or fences constructed of any materials which are liable to snag, tear, cut or otherwise injure anyone coming into contact therewith shall not be permitted. Except that barbed wire or electrically charged fences for agricultural purposes are permitted in areas zoned for agricultural use. Barbed wire fences may be used at the top of the fences in an industrial zoning district provided the same are placed inside the property line and that the barbed wire is at least six feet above the ground.  
(e) No fence shall be erected within any easement or right-of-way, except by prior written approval of those agencies or the City of Bird City, Kansas, having interest in such easement, and with the understanding that if the easement is to be utilized that removal of the fence will be at the expense of landowner.  
4-1004. SAME; OPEN FENCES.  
(a) No open fence shall be constructed closer to the street in the front yard than the edge of the city right-of-way.  
(b) Open fences and decorative fences may be erected within the front yard but shall not exceed four feet in height. At other locations along property lines such fences shall not exceed six feet in height.  
(c) Open fences enclosing tennis courts, basketball courts, badminton courts, volleyball courts, handball courts, and other outdoor athletic courts, may be erected to a height not exceeding 10 feet, provided, such fences shall separate the court from the rest of the property and shall enclose an area no larger than the court itself and surrounding improved playing surface.

(a) Solid fences and visually solid fences where permitted shall not exceed six feet in height.  
(b) No solid fence or visually solid fence shall be constructed closer to the street in the front yard than the edge of the city right-of-way.  
4-1006. NONCONFORMING FENCES; CONTINUATION. Nonconforming fences which may be continued.

(3) A fence existing at the time an amendment is made to the zoning ordinance which changes such land to the more restricted district.
