

Cheylin Cougar boys resume playing ball after long break

The Cheylin boy's basketball team traveled to Grinnell to resume their season after the long holiday break. They started off strong in the first quarter, but fell behind in the second half.

"The boys shot poorly from the field," Coach Clayton Janicke said. "We were less than 10 percent in the first half. We shot very well from the free throw line in the first half though. We were 16/18. Half time score was 21-21.

"We made a few shots in the second half but our free throws went away. If we could have gotten our shooting lined out, the game may have had a different ending. Josh Moyer had a pretty good game."

The Cougars had a rough start to the tournament with a heavy defeat against Wheatland.

"This was a poorly played game," Coach Janicke said. "We had several players out of town over the weekend, and I'm not sure they were back yet. We also had some sickness setting in. As a result, we really didn't do anything well.

"We shot poorly, passed poorly, rebounded poorly, and we were a step slow on defense. We gave ourselves no chance to win."

Cheylin returned to tournament play on Saturday with everyone lined out and ready for action. They played strong all the way through.

"We started out very well in this game," Coach Janicke said. "We hit three 3-pointers in the first quarter and five in the first half. We were up 14 points going into the fourth quarter.

"They had a little run at us in the last stanza, but we remained patient and played within ourselves. We also made 5-of-6 free throws in the fourth quarter.

"As bad as we played against Wheatland is how well we played Triplains. We looked like two completely different teams."

The Cougars take on Hitchcock County at home on Jan. 17. Coach Janicke reports many players ill, so fans will need to turn out to give lots of support.

Book Review

Digital Fortress

By Dan Brown

When the National Security Agency's invincible code-breaking machine encounters a mysterious code it cannot break, the agency calls in its head cryptographer, Susan Fletcher, a brilliant, beautiful mathematician. What she uncovers sends shock waves through the corridors of power. The National Security Agency is being held hostage...not by guns or bombs, but

by a code so complex that if released would cripple U.S. intelligence.

Caught in an accelerating tempest of secrecy and lies, Fletcher battles to save the agency she believes in.

Betrayed on all sides, she finds herself fighting not only for her country but for her life, and in the end, for the life of the man she loves.

"Hemorrhoids? Here's what my doctor recommended."

When I first heard about Hemcure - the painless non-surgical hemorrhoid cure - I was skeptical.

So I asked my family doctor about it. He said Hemcure was a treatment method performed by M.D.'s that would solve my hemorrhoid problem, instead of just treating the symptoms.

I decided to go ahead with it, and you know what? Hemcure really worked, without disrupting my schedule. And my insurance covered it. If you have hemorrhoids, don't suffer. Do yourself a favor and call to find out more.
