

Way to Go Ranchers

We Salute Our Beef Industry

Polled Herefords were developed from the horned Hereford breed which was founded in the mid-18th century by the farmers of Hereford County, England. An Iowa breeder from Des Moines, originated Polled Herefords.

Thanks BEEF Producers

The first four Angus bulls were transported from Scotland to the middle of the Kansas Prairie in 1873. In 1873 two of the bulls were exhibited in the fall of 1873 at the Kansas City (Missouri) Livestock Exposition where some considered the bulls as "freaks" because of their polled (naturally hornless) heads and solid black color.
