**Thanks, Farmers,**  
For Taking Such Good Care of Us!

**AGRICULTURE WEEK • March 15-21**

About half of the wheat grown in the United States is used domestically. The state of Kansas is the largest wheat producer in the United States with North Dakota a close second. Kansas is number one in flour milling in the United States.

**SUB INCH ACCURACY! REPEATABILITY!**

Even greater accuracy is possible using a real-time kinematic system, or RTK. StarFire RTK base stations provide groundbased correction from a local reference point, commonly referred to as a base station. This eliminates GPS drift and provides repeatable accuracy that is usually less than one inch.

Want the Sub Inch accuracy of the RTK system without the cost or hassle of owning a base station? Goodland Greenline now has an RTK network available in your area. Come in to see our coverage maps and learn more.
