Cassidy

Tice

Bracelin

The judges at the local level cast their votes and Madi Tice and Hanna Bracelin both had the same number of votes so were co-winners.

The PTA sponsored their way to Topeka where they were pages for Rep. Ward Cassidy.

Below are the winning essays: "I should volunteer in my community because..."

By Madi Tice

I think that I should volunteer in my community because it will help our town and help the people in it. I think that I should help by volunteering in stores and other places so they will have enough help. I would volunteer at things I like doing. I would help people in the door and do much more so that I could help. I would help the owners and do what ever they would like me to do, even if I had to do something

that I do not like to do. I think that helping is very important to do. I think that it is good to help others and very important to help the community.

"I should volunteer in my community because..."

By Hanna Bracelin

I should volunteer in my community because it would teach me to respect the laws and teach me that I should help do everything that I can. The things that I would do to help in the community are, if I was walking from school to where ever I would pick up trash and throw the things away. I would help people if their hands were full and were trying to get out of a door I would open it for them. I would also get together a group and clean the ditches in the highway. I really think that I would help the community by doing these things.
