

VIAERO: NEW. IMPROVED.

As it turns out, the road to deploying a great network is a *whole lot* like rocket science. It takes a serious amount of engineering and, yes, a bit of trial and error. But now we're running full speed ahead. We thank you if you've stuck with us. If you haven't, we're going to earn your loyalty back. How? With *quality* and with *value*.

Quality: it's what you'll find at the new Viaero. You'll find it in our solid, extensive network. You'll find quality in our personal, local customer service. And you'll surely find quality in our phone selection, which includes the new Samsung® Galaxy S4.

Value is our ability to provide quality service at affordable prices. A perfect example: our all-new Simplicity Plans, which can save you up to \$1200 over the life of your contract.

Of course, we don't expect you to just take our word for how much better we are. The truth is that *you*, our customer, are the best judge of our worth. That's why we offer you a sincere invitation to come experience the new, improved Viaero Wireless.
