Cal Mahin introduced Chris Moore. She is registrar at The Thomas County Prairie Museum of Art and History. Chris's program was about the history of toys, which are on display at the museum.

Chris said that Americans have fallen in love with the means of transportation for many years which has reflected on the vast array of toys for many centuries. Right after the Civil War, iron foundries were looking for ways to expand their market. So they started to manufacturing dutch ovens to toy wagons.

Toys have changed over time. During WWII cast iron toys ceased, due to the fact that metals went for the war effort. Factories have had to learn different ways to make toys by using, tin, rubber, and other products.

Did you know that there was a toy company in Kansas? It was in Clafflin. It was Kansas Toy and Novelty Company. Authur Haines, a toy maker, produced all his own tools and dye cast himself. These are just a few things you can learn at the Thomas County Museum. The next new exhibit will be about dolls.
