Are you getting enough sleep?

equate rest is as vital to health and peak performance as exercise and good nutrition. And it can be so ezzz: Go to bed and get up at the same time every day - even on sleeping pills. They can disrupt weekends. Why: You'll help regulate your body's internal clock to get the 7-8 hours sleep mos adults require. Important: Avoid naps, which can affect your ability to fall asleep at night. Establish a relaxing bedtime routine. Try: a warm bath, light reading or pleasant music. Fact: Listening to classical or New Age music at bed time has been shown to help insomnia sufferers music matches body rhythms and slows the heart rate. Skip stimulants like caffeine and nicotine from late afternoon on. And don't use alcohol to induce sleep. As its effects wear off, your brain actually grows more alert. Dont' rely on ity to function during the day.

Are you getting enough sleep? Half of all adults aren't. Yet ad-

your sleep/wake cycle if you depnd on them too much. Squeeze in daytime fitness. In one recent study, regular exercisers not only slept almost an hour longer than non-exercisers; they also fell asleep in half the time. Breathe easier. People who suffer from sleep apnea - when breathing stops periodically - may actually awake dozens of times during sleep and not know it. Helpful: fall asleep. Possible reason: The Lie on you rside, not your back. . .lose any excess weight. . .stop smoking if you do. . .talk to a doctor if problems continue. Get help if sleep has been disturbed often during the pas month, or if sleep problems interfere with your abil-
