Winona shop featured in national publication

A Winona woman's business will be recognized nationally in the spring. Virginia Arnberger, owner of *The Heritage Nook* in Winona, said she was notified by Club Scrap that her shop had been picked to be highlighted in the monthly newsletter. This newsletter, officials for Club Scrap said, goes out to thousands of Club Scrap members and Club Scrap dealers across the United States and Europe.

The Heritage Nook is the only authorized Club Scrap dealer in the state of Kansas, officials said, and is also authorized to sign up new members to Club Scrap.

The article highlighting *The Heritage Nook* will appear in one of the spring issues of the Club Scrap Newsletters. As for her shop, Arnberger said she carries everything for scrapbooking to include stamping supplies. Club Scrap, officials said, is a nationwide scrapbooking and stamping club.

Wichita youth earns high honor

A boy scout youth from Wichita and the grandson of a Colby couple was recognized for his achievements in scouting recently.

Greg DeRee of St. Anne Boy Scout Association Troop 810 was awarded the rank of Eagle Scout recently, which is the highest award in scouting.

De Ree was honored during a ceremony held at St. Anne Catholic Church in Wichita.

His service project was the landscaping of many of the flower beds outside the entrance of St. Anne's Church.

In achieving this honor, DeRee earned 26 merit badges. He is the son of Frank and Cynthia DeRee

Greg DeRee was honored recently, the grandson of Dennis and Frances Ryan, Colby.

Avoid tragedy during holidays

Christmas is a time for families to gather and celebrate the season. It is also a time that many tragedies will occur because of people's carelessness and neglect.

What are these tragedies? Fires, car accidents, alcohol poisoning, hypothermia, suicide are among the tragedies that can occur over the holiday season. Let's talk about preventing fires which occur frequently over the holidays because of neglect and lack of prevention.

You'll know if a live tree is fresh if the needles are hard to pull from the branches and when bent between your fingers, needles don't break. The trunk of a fresh tree is sticky with tree sap, and when tapped on the ground, the tree shouldn't lose many needles. The branches should not snap when you bend them.

When you get your tree home, you should cut one inch off the trunk to help with water absorption. The tree stand needs to hold at least one gallon of water and is refilled at least every two days.

Here are the directions for making your own Christmas Tree Preservation mix: Feeding your tree with this mixture will help prevent the needles from dropping, retain its moisture and reduce any fire hazard.

Two cups of Karol syrup, two ounces of chlorine bleach (protect flooring from spills), two pinches of Epsom salt and 1/2 teaspoon of Borax (sodium borate).

Healthy Haps

Fill a two-gallon bucket with hot water. Add the above ingredients and mix thoroughly.

Make a fresh cut at the base of the Christmas tree one inch above the original cut. Keep the tree stand full of this mixture. Once a day, mist your tree with water for extra moisture. Check your water level daily. Secure your tree so that it doesn't tip.

Make sure it has been positioned away from floor heaters, fireplaces and other heat sources. See that it doesn't block stairways or entrances. If your tree is artificial, is it labeled with UL approval? This indicates that the tree will resist burning and should extinguish quickly.

Use only UL-approved lights and don't link more than three strands of lights together. Only use indoor lights for indoors and outside lights for outside.

Have you checked every strand for broken or cracked sockets, loose connections or frayed wires? Discard any damaged set.

Make sure all lights are securely fastened. Are there any overloaded wall outlets or extension cords?

Outdoor electrical connections should be above the ground out of puddles and snow.

Fasten outdoor lights securely to trees, house walls or other firm supports to protect the lights from wind

damage. Use only insulated staples to hold strings in place, not nails or tacks. Or, run strings of lights through hooks (available at hardware stores).

With a metallic tree, use only spotlights, not strings of electrical lights. The tree can become charged with electricity from faulty lights and a person touching a branch could be electrocuted.

Outdoor trees hung with lights should not touch power lines. Turn off your lights when you are not at home or are sleeping. Candles are a beautiful decoration and a fire starter.

Candles should be placed in sturdy, fireproof containers. They should be out of drafts and a safe distance from combustibles. They need to be extinguished before you leave a room for any length of time and before you go to bed or leave the house.

Never place the candle near dried flower arrangements, lamp shades or curtains. Do not leave children unattended with a candle burning. Never use lighted candles on a tree or near other evergreens. A nice fire in the fireplace really adds to the holiday atmosphere...but only in a safe fireplace with careful attention to the fire.
