This is a logic-based
number placement puz-
zle. The goal is to enter
a number, 1-9, in each
cell in which each row,
column and 3x3 region
must contain only one
instance of each nu-
meral. The solution to
today's Sudoku puzzle
is right

Opening lead — two of diamonds.

Opening lead - two of diamonds.

Sam Fry Jr. was South in this deal from the 1954 Summer Nationals and got to six clubs on the bidding shown. The slam would ordinarily have gone down one as the cards lie, with declarer losing a heart and a spade, but Fry made it by executing one of the neatest swindles ever seen.

West had a tough choice of opening leads and, after much soul-searching, chose a diamond. It was immediately apparent to Fry that the slam depended on a heart finesse. The problem was to make the slam even if the heart finesse failed. And so, with precisely that goal in mind, he played the queen of diamonds from dummy faster than you can say Sam Fry!

East played the king, and South the ace. Fry then led a club to the jack and took a losing heart finesse. West, after congratulating himself on his sagacity in having chosen a diamond lead, triumphantly played the jack of diamonds, which Fry ruffed.

South now drew two more rounds of trumps and ran his hearts, discarding all three of dummy's spades. He then ruffed the queen of spades with dummy's last trump to produce his 12th trick.

One must sympathize with West, who could not imagine Fry's playing dummy's queen of diamonds at trick one, holding the singleton ace. He naturally thought Fry had the A-x of diamonds. Furthermore, West had no way of knowing that East, rather than South, had the ace of spades.

Note that as the final touch in his deception, Fry had carefully taken the precaution of playing only one trump before attempting the heart finesse, denying East the opportunity to give an illuminating signal in spades.

"It misses my bat when I'm at the plate and my glove when I'm in the field!"
