weather is available on the Web:

Corbin Stephens admired Mark Ostmeyer's city-state project, while Ostmeyer carefully examined his work during a seminar class at Colby High School on Friday afternoon. See story, another photo on Page 1.

Some reflections a safety hazard

snow has experienced it - blind- light being reflected." ing sunlight reflecting off of the frozen water.

What people may not realize, however, is that it's different who heads the Kansas Weather enough from other types of reflections to be a real safety factor.

"The term 'albedo' is used to describe the amount of visible light reflected by a surface, as a percentage of the total visible light that's being cast on the surface," said State of Kansas Climatolo- is typically 80 to 85 percent.

MANHATTAN — Anyone walk- gist Mary Knapp. "The higher the ing, working or driving in ice or number, the greater the amount of want - and need - to reach for their shades," Knapp said.

This can vary widely, of course, depending on the conditions and the particular surface, said Knapp, Data Library, based at Kansas State University.

Lunch: Sausage pizza, corn,

Tuesday: Breakfast: Scrambled

Lunch: Grilled cheese sand-

juice and milk.
