For heart health, start walking plan

The American Heart Association is calling on Kansas residents to walk for 30 minutes on Wednesday – National Start! Walking Day. Residents are encouraged to take that 30-minute walk inside, outside, at work, at home or wherever they are on that Wednesday to celebrate the day.

Start! is the American Heart Association's national initiative that champions walking because it has the lowest dropout rate of any physical activity. You can download a custom walking plan from the Web site, www.StartWalking-Now.org, to track your progress.

In January, the heart association defined the seven key factors to ideal cardiovascular health. Physical activity is one, but only 15 percent of American adults achieve recommended levels of moderate aerobic exercise 150 or more minutes per week.

The Start! initiative encourages all Americans to get started on a walking program as a way to achieve activity goals and reduce the risk of cardiovascular disease by as much as 30 percent.

"Healthy lifestyle choices should be a community priority. Nearly 67 percent of Americans are overweight and are at risk for heart complications from sedentary lives," said Erin Kiebusch,

meal at 6:30 p.m. Saturday.

Sunday school will be feature both the Spricks and Mulligan from 9:30 a.m. to 10:30 a.m., with the worship service to follow. A carry-in dinner will follow the services. Everyone is invited.
