Aries (March 21 - April 20) Prioritize your time, creating clear boundaries, not assuming that you can be everything to everyone all the time. Don't take yourself too seriously. Find creative solutions.

Taurus (April 21 – May **21**) These are important days for all things romantic and cre-

ative. Open communication lines and break through barriers. Behind the scenes, create balance.

Gemini (May 22 – June 21) Your income sector opens new doors, especially related to where you've been and what's possible for the future. Bury the hatchet and believe in yourself, the future and what's possible personally and professionally.

Cancer (June 22 – July 22) You're finally coming into your own. With the pace of life slowing down you have a chance to weigh your options, especially on the personal and professional fronts. Nothing is set in stone and you're free to change your mind at anytime, no questions asked.

Leo (July 23 – Aug. 22) Your heart and mind are focused on the future, with one foot in the past. There is a large range of second chances on both fronts. Put maximum input into getting any income objectives

Virgo (**Aug. 23 – Sept. 23**) Being authentic comes with responsibility for making tough decisions, especially in choosing your needs above someone else's. By committing to your own future, the small decisions make themselves. The future is your choice, for you are master and architect of your own future.

Libra (**Sept. 24 – Oct. 23**) Go easy on yourself, refusing to create challenges where there are none.

The conference will begin with breaks or lunch.
