Aries (March 21 – April 20) While you may appear to hit a speed bump, it's more a case of slamming on your brakes because you've reached an intersection, at the right place and time to stop you from sailing right past opportunities without even noticing them.

Taurus (April 21 - May 21) While you may appear to hit a speed bump, it's more a case of slamming on your brakes because you've reached an intersection, at the right place and time to stop you from sailing right past opportunities without even noticing them.

Gemini (May 22 - June 21) Nothing slows your professional momentum. Enjoy life. Shift away from all work and no play. If you're not sure how, follow your heart on the little things and start challenging your excuses.

Cancer (June 22 – July 22) It's been hard to be other than true to yourself, allowing you to see that it's about what you want from the future. Continue to redefine your expectations for the future, realizing that you alone are the architect and the master of your destiny.

Virgo (Aug. 23 – Sept. 23) You're finally on your way into the next chapter of life. With a little patience a financial challenge is an opportunity in disguise. Meanwhile your heart and your passions are bouncing back.

Capricorn (Dec. 22 - Jan. 20) A professional era with a false start last October is back to stay until October, 2012. You're likely to run into problems if you don't make your home and family life equally important.

Aquarius (Jan. 21 - Feb. 19) Financial challenges are behind you, leaving you with momentum. Challenge your excuses, especially if you're stuck in a rut or watching life from the sidelines.
