# Beulah Cemetery hit by vandalism

#### By Kevin Bottrell

Colby Free Press kbottrell@nwkanas.com

Sometime Monday night or early Tuesday, vandals knocked over hundreds of headstones at Beulah Cemetery on Country Club Drive. Dale Deaver, chairman of the cemetery board, said 168 headstones had been pushed over or damaged. Most were two-piece stones with a base and a separate, upright marker. Deaver said vases on some headstones had been taken and thrown against the stone.

"It's real bad that we have this beautiful place out here and we have people who come along and destroy it," he said.

Police Chief Randy Jones said most of the stones had simply been kicked over. Police found shoe prints on the tops of the stones. Jones said since many stones are only glued down, it wouldn't take much force to topple one.

The vandals also took flowers out of the vases and threw them on the ground and damaged the directory, kept in a kiosk in the center of the cemetery.

Deaver and the cemetery crew was surveying the damage Tuesday along with a steady stream of citizens checking their family headstones. The Police Department is investigating. Officers were at the cemetery throughout

organizations will have booths after a 36-year career at the colbirthday. Mud volleyball competition ball field.

## City water use stays below 'watch' level

#### By Kevin Bottrell

Colby Free Press kbottrell@nwkansas.com

plenty of rain, Colby residents haven't had to Use fell off after that, reaching a season-low go on water rationing. In fact, it's been four to five years since that happened.

The city's Public Works Department monitors the total water use across the city during the summer, and although demand has spiked several times, the city has not needed to imdown.

pose water rationing or conservation. Water use rose steadily in late June, with a peak of 3.1 million gallons reported on June 30. The It's been a long, hot summer, but with high temperature that day was 93 degrees. 1.5 million gallons on July 7, before rising again to about 3 million gallons on July 29. The temperature reached 92 that day.

Public Works Director Chris Bieker said the rain has helped the city keep water use See "WATER," Page 3

"All these little bitty rains make all the difference," he said. "Then folks don't have to water their lawns."

At the end of July, the Colby area was more than an nearly an inch over the normal amount of rainfall. The Kansas State University Experiment Station recorded 14.39 inches of rain for the year on July 30. The
