

Crop assistance deadline coming up

Adrian J. Polansky, state executive director for the Farm Service Agency in Kansas, reminds producers that Wednesday, Sept. 1, is the application closing date for certain crops under the Non-insured Crop Disaster Assistance Program. Eligible crops are those not insurable in the county for food or fiber.

Sept. 1 is the final date to get coverage for canola, Christmas trees, nursery crops, turf grass sod, and all small grain crops, except oats. Wheat to harvest as grain is not eligible.

The administrative service fee

is \$250 per crop per county up to \$750 and \$1875 maximum for multi-county producers.

This coverage entitles eligible producers to a payment of 55 percent of an average market price for the commodity if a natural disaster caused a 50 percent or greater loss.

Claims must be filed within 15 days after the disaster or the date the loss becomes apparent.

Colby farmers should contact their local Farm Service Agency at 462-7671, or go to the office at 915 E. Walnut.

Oregon shrimp glows in dark

NEWPORT, Ore. (AP) — People who bought pink shrimp at some Oregon stores are reporting that it glows in the dark.

Experts tell *The Register-Guard* that they shouldn't worry because it's due to certain marine bacteria that cause shrimp and other sea-

food to appear luminescent. They say it's not a health risk and does not indicate mishandling.

Specialists at Oregon State University say the bacteria can grow at refrigerator temperatures, especially on seafood where salt was added during processing.
