Creation, bingo and paintball make busy Rexford weekend

We had a busy weekend in Rexford.

Shepherd's Staff had a creation science seminar on Friday and Saturday. Speaker Brian Young of the Creation Instruction Association covered many topics during the event, and people from all over northwest Kansas attended. The CrossPoint Church of Hays brought their youth group to the event; the youth then played paintball under the new lights until midnight.

Saturday night was bingo night at the Red Barn. It looked like

Gwen Griffiths

• Rexford Correspondent

there was a pretty good group of people enjoying games and each other's company.

Sunday afternoon, Shepherd's Staff had a paintball group from Brewster Community Church.

Sunday evening Shepherd's Staff offered the Unpacking Atheism simulcast.

This Thursday is the night for Spuds and Splits at the Red Barn. This event is for anyone in the 40-and-over group who wants to enjoy good company, baked potatoes and banana splits.

Rexford Community Church will be packing shoeboxes for Operation Christmas Child on Sunday, Oct. 28. Lunch will be provided following the Sunday morning church service and then boxes will be packed and wrapped. Materials for inside the boxes will be provided, although you are welcome to bring additional materials.

That's the news for this week. You can email news events to griffithsgang@gmail.com or call 687-2076.

Have a great week!

Logan museum to have three day art workshop

Master pastelist Kaye Franklin will give a three-day painting workshop Thursday through Sunday, Nov. 1 to 3, at the Dane G. Hansen Memorial Museum in Logan.

Franklin has instructed an oil and pastel class at the museum for the past eight years, and has been asked to return by popular demand.

She began her art career in 1975 while living in Pagosa Springs, Colo. She and her family moved to Graham, Texas, in 1979 and she began a quest for the best schools and instructors. Franklin studied at the Scottsdale Artist School and with Connecticut artist William Henry Earle.

She has received national awards and honors that have culminated in her recognition as master pastelist, and her election to signature membership in the Pastel Society of America and Oil

Painters of America. Franklin has taught in Canada, Mexico, England, France, Spain, Italy and the Pacific Northwest. She has been featured in numerous publications including *American Artists* magazine and *Best Pastels*.

The elements in her artwork consist of light, color and focal point. She likes working with both pastels and oils. Pastels show immediate results and they stay brilliant; oils allow you to create new colors from existing pigments.

Instruction will consist of both the use of oils and pastels on varied subject matter. Workshop classes will be held from 9 a.m. to noon and 1 to 4 p.m. in the Hansen Plaza Community Room, 110 West Main in Logan. Intermediate to advanced artists may register.

Call (785) 689-4846 for information or go to www.hansenmuseum.org.

On the Beat

Friday

- 12:41 a.m. – Helped sheriff's office on traffic stop.
 - 2:14 a.m. – Two adult underage subjects carrying case of beer. Item confiscated.

A PROPOSITION to amend section 1 of article 11 of the constitution of the state of Kansas, relating to classification and taxation of watercraft, to be submitted to the electors of the state at the general election to be held on November 6, 2012.

House Concurrent Resolution No. 5017

§ 1. System of taxation; classification; exemption. (a) The provisions of this subsection shall govern the assessment and taxation of property on and after January 1, 2013, and each year thereafter. Except as otherwise hereinafter specifically provided, the legislature shall provide for a uniform and equal basis of valuation and rate of taxation of all property subject to taxation. The legislature may provide for the classification and the taxation uniformly as to class of recreational vehicles and watercraft, as defined by the legislature, or may exempt such class from property taxation and impose taxes upon another basis in lieu thereof. The provisions of this subsection shall not be applicable to the taxation of motor vehicles, except as otherwise hereinafter specifically provided, mineral products, money, mortgages, notes and other evidence of debt and grain. Property shall be classified into the following classes for the purpose of assessment and assessed at the percentage of value prescribed therefor:

- Class 1 shall consist of real property. Real property shall be further classified into seven subclasses. Such property shall be defined by law for the purpose of subclassification and assessed uniformly as to subclass at the following percentages of value:
- (1) Real property used for residential purposes including multifamily residential real property and real property necessary to accommodate a residential community of mobile or manufactured homes including the real property upon which such homes are located.....11 1/2%
 - (2) Land devoted to agricultural use which shall be valued upon the basis of its agricultural income or agricultural productivity pursuant to section 12 of article 11 of the constitution.....30%
 - (3) Vacant lots.....12%
 - (4) Real property which is owned and operated by a not-for-profit organization not subject to federal income taxation pursuant to section 501 of the federal internal revenue code, and which is included in this subclass by law.....12%
 - (5) Public utility real property, except railroad real property which shall be assessed at the average rate that all other commercial and industrial property is assessed.....33%
 - (6) Real property used for commercial and industrial purposes and buildings and other improvements located upon land devoted to agricultural use.....25%
 - (7) All other urban and rural real property not otherwise specifically subclassified.....30%

Class 2 shall consist of tangible personal property. Such tangible personal property shall be further classified into six subclasses, shall be defined by law for the purpose of subclassification and assessed uniformly as to subclass at the following percentages of value:

- (1) Mobile homes used for residential purposes.....11 1/2%
- (2) Mineral leasehold interests except oil leasehold interests the average daily production from which is five barrels or less, and natural gas leasehold interests the average daily production from which is 100 mcf or less, which shall be assessed at 25%.....30%
- (3) Public utility tangible personal property including inventories thereof, except railroad personal property including inventories thereof, which shall be assessed at the average rate all other commercial and industrial property is assessed.....33%
- (4) All categories of motor vehicles not defined and specifically valued and taxed pursuant to law enacted prior to January 1, 1985.....30%
- (5) Commercial and industrial machinery and equipment which, if its economic life is seven years or more, shall be valued at its retail cost when new less seven-year straight-line depreciation, or which, if its economic life is less than seven years, shall be valued at its retail cost when new less straight-line depreciation over its economic life, except that, the value so obtained for such property, notwithstanding its economic life and as long as such property is being used, shall not be less than 20% of the retail cost when new of such property.....25%
- (6) All other tangible personal property not otherwise specifically classified.....30%

(b) All property used exclusively for state, county, municipal, literary, educational, scientific, religious, benevolent and charitable purposes, farm machinery and equipment, merchants' and manufacturers' inventories, other than public utility inventories included in subclass (3) of class 2, livestock, and all household goods and personal effects not used for the production of income, shall be exempted from property taxation.

Explanatory statement. This amendment would allow the legislature to classify and tax watercraft upon a basis different from other property. A vote for this proposition would permit the legislature to provide for separate classification and taxation of watercraft or to exempt such property from property taxation and impose taxes in lieu thereof. A vote against this proposition would continue the taxation of watercraft in the same manner as all other property.
