

On the farm

DAVID TOLE
VERA SLOAN/Colby Free Press

An aerial view (top) shows David Tole's wind breaks, along with the rest of his farm. Tole, who furnished the photo, won the Kansas Bankers Association's Wind Break Award for 2012. Dottie, a 2-year-old Brittany spaniel (above), is Tole's shadow these days around the farm. Tole says she loves to hitch a ride on his four-wheeler, and evidently, she doesn't wait for an invitation.

Congratulations To All Conservation Winners!

Efficient practices make sense for the environment and for your bottom line, on the farm, and in the home.

Improve your home's efficiency with How\$mart, which provides money for updated heating and cooling systems. Customers repay funds through energy savings on their monthly utility bill. Call Midwest Energy today to learn how How\$mart can improve efficiency, and lower your bills!

Introducing the Next Generation Precision Solution.

Outback MAX™

SIMPLIFIED USER INTERFACE

Configure the screen with your favorites or most used functions. Select 3D or top down view angles that provide superior situational awareness.

Outback ConnX

SIMPLIFIED CONNECTIVITY

Make the best farming decisions through the all-new Outback ConnX, a web-based system that seamlessly interfaces and simplifies data transfer between the MAX terminal and office, vehicle tracking, advanced weather, and remote access to the terminal.

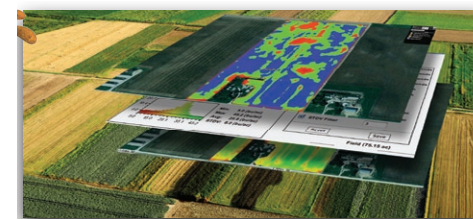

Outback® MAX™ redefines simplicity in precision farming.

The system works seamlessly with eDriveX™ with eTurns™ and features section and variable rate control within the rugged, high-definition console.

Full-featured section control, monitoring and guidance is possible through Outback MAX with video support for up to 4 monitoring cameras and an optional switch box and lightbar that conveniently attach to the console.

POWERFUL MAPPING ENGINE

Stack up to three separate layers of data that give you the complete picture when managing your fields inputs.

ULTIMATE PRECISION PACKAGE

Combine Outback MAX with these field proven units and create the Ultimate Precision Package.

eDriveX Auto Steer with eTurns

AC110 Rate and Section Control

A321 Smart Antenna
