LEGAL NOTICE
Pursuant to L. 1991, ch 279, 2.
Results of the Market Study Analysis for Thomas County for Assessment Year 2013. A study of the residential real estate market indicates there is an upward trend in the county, based on price range of houses on the market and recent sales. A study of residential and commercial vacant land indicates there is an upward trend. A study of the commercial real estate market indicated there is an upward trend downtown and an upward trend at the interstate area and industrial area. Values on specific properties may change because of changes in the property, correction of descriptive information of calibration of values based on sales of similar properties in the area. In accordance with the provisions in KSA 79-1476, the Division of Property Valuation is required to annually furnish each county the results of its study relating to changes, if any, of the Use Value of agricultural land. Changes that can and do occur as a result of several factors include cropping practices, commodity prices and production costs. The Study relating to Use Value of agricultural land completed by the Division of Property Valuation indicated the following changes compared to the prior year:
All Grassland: No change in value from the study relating to use value of agricultural land completed by the Division of Property Valuation.
Dry Cropland: Increased in value depending on certain soil types from the study relating to use value of agricultural land completed by the Division of Property Valuation.
Irrigated Cropland: Flood: Values will increase or decrease depending on the well depths and soil types. These values are from the study relating to use value of agricultural land completed by the Division of Property Valuation.
Sprinkler: Values will increase or decrease depending on the well depths and soil types. These values are from the study relating to use value of agricultural land completed by the Division of Property Valuation.
