WHEREAS, K.S.A. 79-2925b provides that a resolution be adopted if property taxes levied to finance the 2008 Sherman County budget exceed the amount levied to finance the 2007 Sherman County budget, except with regard to revenue produced and attributable to the taxation of 1) new improvements of real property; 2) increased personal property valuation, other than increased valuation of oil and gas leaseholds and mobile homes; and 3) property which has changed in use during the past year, or with regard to revenue produced for the purpose of repaying the principal of and interest upon bonded indebtedness, temporary notes, or no-fund warrants; and

Kansas' earliest CSI story

Fingerprint ends nationwide '20s manhunt

True crime from the roaring 20s, "The Fleagle Gang, Betrayed by a fingerprint," begins with a brazen daylight bank robbery of the First National Bank in Lamar, Colo. on May 23, 1928. Four men died, and the robbers escaped — until forensic science caught up with them through a fingerprint.

The bank robbery and national manhunt story was big news more than 75 years ago. We found recently the old time radio program "Gangbusters" aired a program on Jake and Ralph Fleagle in 1937. There are many old stories about the crime, but none cover the events like this book. Great for true crime history buffs.

The book includes over 100 photos and maps taken from court files and places where the gang robbed banks and scenes where the murders took place of the doctor and cashier.

A few signed copies are available at The Goodland Star-News, 1205 Main. Search inside the book on Google.com and Amazon.com

Author Tom (N.T.) Betz, editor of The Goodland Star-News, has spent more than 45 years in journalism and living on the Great Plains.

"The Fleagle Gang" details the robbery/murder case which hinged on a single fingerprint found on a murdered Dighton, Kan., doctor's car. The fledgling FBI plays a crucial role in turning the fingerprint into solid forensic evidence used to find, arrest and convict members of the Fleagle Gang. The FBI credits the Fleagle case as the first time a single fingerprint was used to identify and convict criminals. The Fleagle Gang robbed banks in Larned, Kinsley, Marysville, Ottawa and McPherson Kan., Lamar, Colo., Eugene, Ore., and countless others of over \$1 million in the 10 years they operated.

"The Fleagle Gang" is available at the Big Timbers Museum in Lamar, Colo., the Holly Library, Holly, Colo.; the Fick Fossil and History Museum in Oakley, Kan., the Finney County Museum and Hastings in Garden City, Kan., the High Plains Museum in Goodland, Kan., the El Quartelejo Museum in Scott City, and the Colorado Prison Museum in Canon City, Colo. It is available on-line from the publisher Authorhouse.com, Linda Knott's web bookstore knottjustbooks@spreadtheword.com; Amazon.com; Barnes and Noble; Tattered Cover and other major book stores.
