"Did you know that even a brand new home could present a risk of lung cancer for your family?"
Radon gas rises up from underground and can enter any home, old or new. Radon is the leading cause of lung cancer after smoking and for non-smokers, it is the leading cause of lung cancer, period. Houses can be built to resist radon gas from seeping in. Designing and building your home to be radon-resistant is especially easy and affordable during construction. Be sure to talk to your builder about it.
