high strength ductile iron worm gear | 25 degree angle tooth design | pure steel NTN bearings | patented seal design | unique expansion chamber design

a legendary gearbox

The most durable and reliable gearbox in the industry should be the one your field depends on.

Known as the **ONLY** American manufacturer who designs and builds its own gearbox, there's a reason Valley gearboxes have become legendary.

The most comprehensive gearbox warranty in the industry — covers parts and labor for the entire warranty period.

The difference is obvious. The difference is Valley.
