Special Education records to be destroyed

Special education records which have been collected by the Goodland School District related to the identification, evaluation, educational placement, or the provision of special education in the district, must be maintained under state and federal laws for a period of five years after special education services have ended for the student. Special education services end when the student is no longer eligible for services, graduates, completes his/her educational program at age 21, or moves from the district. After five years, the records are no longer useful to the district, but may be useful to the parent/guardian or former student in applying for social security benefits, rehabilitation services, college entrance, etc.

This notification is to inform parents/guardians and former students of the Goodland School District's intent to destroy the special education records of students who received special education services during the 2004-2005, and 2005-2006 school years. These records will be destroyed in accordance with state law unless the parent/guardian or eligible (adult) student notifies the school district otherwise.

The records are destroyed approximately two weeks after this official notice is published.

The parent/guardian or eligible (adult) student may request a copy of the records in writing or in person at the following address:
