48. A large amount
51. Talk
52. Belonging to a thing
54. Language spoken by the Khonds

Cowboy football team wins first away game

A strong debut performance from freshman quarterback Trey Teeter helped the Goodland High School football team overpower the Hugoton Eagles 24-13 in the first game of the season Friday at Hugoton.

The first home game will be at 6:30 p.m. Friday against Norton at Cowboy Stadium.

Hugoton received the first kickoff, which went out of bounds. A flag on the play resulted in the ball being brought out to the 30 yardline. The Eagles made it to Goodland's 38 yardline before they fumbled. Taylen Smith recovered for the Cowboys.

The Cowboys would only gain about five yards on their first drive. Smith punted, and the Eagles returned the ball to their 23 yardline. The Cowboys were called for a chop block, and the Eagles got the ball out to the 41 yardline. At fourth down and one yard to go, Hugoton was called for a five-yard false start penalty. Rethinking their decision to go for it, Hugoton punted.

Dax Ruhs received, running to the 37. On the next play, Ruhs broke

free of the defending Eagles and ran 63 yards for a touchdown. The Cowboys missed the extra point, something that would plague them all night, but they now held a 6-0 lead.

Ruhs kicked off and made the tackle on the return play. The Cowboys racked up another personal foul, this time roughing the passer, but John Peden then recovered a loose ball. Goodland couldn't get anything going on the drive, however, and punted.

The teams traded possessions again. With the ball back in Cowboy hands, Teeter threw to Cy Paxton for 40 yards at the end of the quarter.

At the beginning of the second quarter, Ruhs and Garrett Taylor each ran for first downs. Gage Ihrig came in at quarterback, but fumbled a snap. He recovered and continued the play, but he was replaced on the next play by Teeter, who tossed a 16-yard pass to Paxton for a touchdown. The Cowboys missed the extra point. The score was now 12-0.

Neither team saw much action until late in the quarter. With 5:50

left Hugoton went for it on 4th and 32, which resulted in a turnover. Then Teeter threw another touchdown pass to Ruhs to make it 18-0 in favor of Goodland. This time the extra point was blocked.

The Cowboys made an inside kick, but Hugoton recovered and moved the ball down the field to score their first touchdown with less than a second left in the half. The Cowboys blocked Hugoton's extra point. The score was 18-6 at the half.

The Cowboys were on offense again coming out of the locker room. They got things started with a 12-yard run by Ruhs for a first down, but the ball came loose on the next play. Hugoton recovered, but their drive was stopped in place by the Cowboy defense. They were forced to punt.

Back on offense, Teeter threw to Paxton, who was brought down at the 38 yardline. Ruhs ran for three successive first downs. However, the Cowboys faltered near the goal line, turning the ball over to the Eagles.

Hugoton didn't keep it long, turning over the ball at the 46 yardline. Taylor ran it to the 30, and Ruhs made a touchdown run with 1:54 left in the third. The two-point conversion attempt failed, making the score 24-6.

The Eagles fumbled the ball on the kickoff return. Paxton recovered, but the Cowboys couldn't get anything going on offense. They punted back to Hugoton as the quarter ended.

Neither team had much luck in the beginning of the fourth quarter. They traded possessions several times. Coach Teeter made some lineup changes, including putting in Colt Traxel at quarterback. Ricky Milke fumbled, which Hugoton recovered. On the next drive, the Eagles scored a touchdown and extra point, making it 24-13.

The Cowboys got the ball with just a few seconds left and ran out the clock for a 24-13 win.

Level: Beginner

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
