Free ice cream September 21

The Norton Dairy Queen, along with Dairy Queens across the nation, is celebrating the end of summer with their second annual Free Cone Day on Tuesday, Sept. 21.

As well as giving away free ice cream, Dairy Queen will be collecting donations for Children's Miracle Network, a non-profit organization dedicated to helping children by raising funds and awareness for 170 children's hospitals throughout North America.

Prayer

Dear God, use us this day. Lead us into situations where we can serve you.

Burglaries in two counties may be related

A run of burglaries in the rural areas said. have both the Norton County and Decatur County sheriff's offices on their toes.

In the last two weeks, two break-ins have been reported in Norton County and four in Decatur County.

by the same person or persons.

"It's very suspicious," he said.

The burglars always take the same things and enter the same way, said Decatur County Sheriff Ken Badsky. For the most part, the burglars have taken cash either out of a desk or a soda machine, he

The first four burglaries took place on Friday, Aug. 27, sometime between the time the businesses closed and when they opened on Saturday, Aug. 28.

The businesses broken into included the Norton County Sheriff Troy Thomson Norton County Cooperative Assosaid it's possible they have all been done ciation's Clayton elevator, where \$20 was taken along with a fan, said Sheriff Thomson. The door was busted in.

An attempted break-in was made at Country Corner in Lenora on the same day. He said damage was done to the door, but the thieves were unable to enter.

D&M Service in Norcatur was also

robbed on Aug. 27, where there was \$300 damage. missing from car wash money. The door knob was broken, Sheriff Badsky said, and damage was estimated at \$35.

Norcatur Grain was broken into the same night, suffering a broken window pane and busted padlock. Damage was \$260, and the burglars took \$84.

Last Wednesday, two more break-ins were reported. One was at the Broken Wheel bar in Jennings, where thieves took \$410 in cash and checks. There was \$25 worth of damage to the door.

The other was at the Dresden Elevator, where they got \$80. There was \$25 in

Outdoor lighting, good locks and strong doors are the best deterrents to burglars, said Sheriff Thomson.

Sheriff Badsky said businesses should make it as hard as possible for people to get in. Owners shouldn't leave any cash in a business and a light should be left on all night so officers can see inside.

If people get up in the middle of the night to get a drink of water, maybe they can take a look out the window. If they see something that is out of the ordinary, he said, they should report it.

Landfill equipment on the minds of commission By VERONICA MONIER

The Norton County Commissioners are looking at their options where equipment for the landfill is concerned.

At Monday's meeting, Dustin Daniels, a product representative from Martin Tractor of Colby, gave the commissioners estimates for repairs on the county's trackloader and 613B scraper and also gave them a cost estimate on what would happen if repairs weren't made.

Mr. Daniels said the cost of getting the 1991 trackloader up to par would be \$24,371. He said the undercarriage was bad but the rest of the machine was decent. He said it has a few leaks and some hoses that were torn up. The heating problem, he said, is possibly being caused by a blow head gasket, but they wouldn't know for sure until they "opened her up".

He said the \$24,371 would cover repairs to the undercarriage and the head gasket. He said the price might be cheaper because the county already has some replacement rollers for the trackloader.

"It looks about what you'd expect for a machine at 5,000 hours," he said.

The county could probably get another 5,000 hours out of it with good maintenance. Or the county could put a re-manufactured engine in it and get around 6,500 more hours. Repairs with the re-manufactured engine would total around \$30,000.

Mr. Daniels said the scraper has at least 8,600 hours on it, possibly more. He said the engine is kind-of bad.

He said if the county keeps the engine, it would cost close to \$5,000 in repairs. Or, he said, the county could buy a re-manufactured engine for about \$8,000 with a one-year warranty. The third option would be to take the engine from the scraper the county has in Colby, but isn't using and switch it with the problem engine for a little under \$3,000.

Mr. Daniels said the total for fixing the scraper would be between \$20,000 and \$25,000, to put a re-manufactured engine in it would be between \$30,000 and \$32,000, and to swap engines would cost in the mid-twenty thousand range.

He said the engine, transmission and torque are the three major problems with the scraper.

Commissioner Leroy Lang said they have to decide whether or not they are going to keep the scraper they have or trade it in for the 1999 scraper.

Mr. Daniels said the scraper they are thinking about buying is a good machine that hasn't been overworked.

Mr. Lang said either way, they needed (Continued on Page 5)

Labor Day Celebration a success

By DICK BOYD

The 28th annual Labor Day Celebration in Logan on Sunday was another successful, fun event with an estimated 2,500 people attending the evening musical entertainment and fireworks display.

"When we started putting tents up in the morning, it was raining," said Lee Favre, director of the Dane G. Hansen Museum, sponsor of the event.

"We were happy to have the rain but then the wind started blowing and picked up throughout the day. The wind kept the crowd down a little throughout the day but the wind went down and then everything ended really nice. There was hardly any breeze by the time the fireworks display

"Rainbow Fireworks was in charge of our fireworks display again and I received many good comments again on the colorful aerial display. They gave us a good variety of fireworks."

Despite the windy conditions, the crowd during the day was good enough that the Logan Chamber of Commerce food booth ran out of food earlier than last year. Also selling refreshments were Terry and Bodie Cooper, Hill City, from their ice cream truck and Elmer Frick, McCook, from his kettle korn stand.

The Logan Fire Department and vet $eran\,Chief\,Lawrence\,``Sonny''\,Ruff\,were$ on hand and ready to fight any grass fires (Continued on Page 5)

Molly Gale (above) completes a "full pull" under the watchful eye of Bill VanDeCreek to place second in her age group in the state sanctioned kids tractor pull at the Logan Labor Day Celebration last weekend. Later this year, VanDeCreek will be in charge of the national kids tractor pull. Lynn Clements, left, and Max Lowry (below) kept busy cooking brats, hamburgers and hot dogs for the Logan Chamber of Commerce food stand. The food was so good that the stand sold out earlier than normal. See more pictures from the Labor Day Celebration on Page 10. — Telegram photos by Dick Boyd

Oklahoma and Colorado came to show their stuff at the Third Annual Vintage Race and Car Show and 305 Winged Sprint Races held at Elmwood Park, Labor Day The track in front of the grand-

stands is purported to be the fastest and oldest half mile dirt track in northwest Kansas. The vintage car owners took the opportunity to exhibit their classic vehicles on the track. These cars dated back to the 1930s, '40s, 50s and '60s.

Something new was added to the show this year with the introduction of the 305 Winged Sprint Races. The 305 Sprint is a new class of race car that is designed and set up to be much more affordable than the 360s or the 410s. The 305s will get approximately 400 to 450 horsepower with restricted engine rules.

Randy Bantam, Norton, drives No. 5R in the 305 Winged Sprint

Vintage car drivers from the Norton area are Mirl Barnett, Don McMullen and Bruce Colip.

Bruce Colip and Mirl Barnett (above) check out their surroundings at last weekend's Third Annual Vintage Race and Car Show and 305 Winged Sprint Races held at Elmwood Park. Jerry Bantam's winged sprint car (bottom left) and Mr. Colip's vintage race car (bottom right) were two of the dozens of cars on display.

Logan holds annual celebration

(Continued from Page 1) from fireworks if the wind had caused any problems. As in the past, the Logan Lions Club did an excellent job of directing traffic. The Phillips County Sheriff's Department was in charge of traffic

Events of the day included the Dane G. Bales Jr. Memorial Car Show, VanDeCreek's State Sanctioned Kids Pedal Pull, the Sand Volleyball Tournament and Radio-Controlled Airplane Fly-in.

Beginning at 5 p.m., the "Heartland" band took the stage and played country/rock tunes for two hours. They were followed by Leroy Krafft, Goodland, 1956 8-year-olds — Trisha Kish, "Jimmy Dee and the Fabulous Chevrolet; Sherry and David Rou-first; Clayton Rundle, second; and Destinations" playing rock and roll over the loud speakers.

The wind went down just in time for Tim Schumacher, Hays, to play "America the Beautiful" on his trumpet as a prelude to the fireworks show The fireworks were accompanied by patriotic music played over the loud speakers.

Children had lots of splashy fun on the water slide which was supervised by the Catholic Youth Organization of Logan. For the 10th year in a row, Joe Cheesman, Lebanon, was present with his Tubs of Fun rides for children and

The Phillipsburg National Guard was present with a climbing wall.

The radio-controlled airplane fly-in attracted 10 pilots from communities including La Crosse, Hays, Palco and Littleton, Colo., in addition to Logan. Mickie McElroy, chairman, said that, despite the wind, 30-35 flights were made. He also said the pilots enjoyed swapping stories from other
