Normal High: 45  
 Normal Low: 18  
 Sunrise: 7:38 to 7:43am  
 Sunset: 6:06 to 6:10pm

Two days in a row with temperatures in the 40's will help melt a little snow and ice, but the cold air returns tomorrow and will be with us for another week or more. Precipitation with this surge of cold air will most likely be in the form of very light snow or flurries. Accumulations will be in the order of an inch or less or just a couple dustings late Wednesday through Friday night. The weekend looks cold with a couple more chances of light snow early next week.
