Theft

(Continued from Page 1)
 12 on a theft warrant from Kieth County, Neb.
 The equipment had been reported stolen between November 2005 and April 2008.
 The indictment lists the stolen equipment by year:
 In 2005, a 30-foot gooseneck trailer, Wyoming; a Chevrolet pickup, Colorado; and a Case 475 trencher and trailer, Nebraska.
 In 2006, a Case 1845 skid load-

er and trailer, Nebraska; a Gleaner R65 combine, Oklahoma; and a Cat CH55 tractor, Kansas and Nebraska.
 In 2007, a John Deere 4560 tractor with a 840 loader, Nebraska; a John Deere 7820 tractor, Colorado; a Brent 774 grain cart, Oklahoma; and a Titan dump trailer, Oklahoma.
 In 2008, a John Deere 8530 tractor, Nebraska; and a John Deere 1720 prototype planter.

The equipment is impounded at the city shop in Colby, where it was taken after being seized from Jones' property north of town.
 Thomas County Attorney Bruce Flipse said he was given the option of prosecuting Jones himself when he was first arrested, but he decided to turn the case over to the U.S. attorney's office.
 At the time, the only crime Jones was accused of in Thomas County was possession of stolen

property, which, the county attorney said, is difficult and expensive to prosecute because the property owners would have to be brought here to testify.
 In addition, Flipse said, it would be a long and complicated process for each county involved to file separate charges.
 According to sheriff's office records, Jones was also arrested for driving under the influence and transporting an open container.

 4) Why are you seeking a council seat?
 I enjoy it and like learning about the government process. It takes one term to learn it and another term to get anything done.
 5) What will you bring to the city?
 The experience of serving one term.

6) Do you have a specific goal you hope to accomplish while on the council?
 I'd really like to see us able to work with state agencies when they update standards for things like wastewater and solid waste. New guidelines for cities and towns should have a two year plan so new standards aren't imposed immediately.
 This would give cities more

time to implement changes. I'd like to get rid of the big brother element and have a partnership between state and local government.
 7) What experience do you have that will enable you to be a good representative on the council?
 Previous council experience.
 8) What major issue do you

think needs to be addressed?
 We need to get businesses to come to Norton, and we need a way to keep the businesses we have.
 9) How will you address the issue?
 Economic Development is doing a really good job of getting the ball rolling with renovations, etc.

 3) Have you served on the council, or any other board?
 I haven't served in any boards at this point, but I am interested in doing so.
 4) Why are you seeking a council seat?
 I think that everyone should be involved with the community they live in in some way. Since attending its meetings for the newspaper, I've had an interest in city council.

5) What will you bring to the city?
 I'm bringing my five and a half years of observing the council make the decisions that affect the city in small and large ways. Also, I hope to bring a fresh perspective to the way the council solves issues before it.
 6) Do you have a specific goal you hope to accomplish while on the council?
 I just want to bring a fresh perspective and help find new

ways to solve the many issues the council deals with.
 7) What experience do you have that will enable you to be a good representative on the council?
 The experience I gained while covering the council and its committees while working for the newspaper.
 8) What major issue do you think needs to be addressed?
 To help keep our established

businesses viable in these hard economic times, while doing so in a cost effective manner.
 9) How will you address the issue?
 I hope to work with the economic development board and business owners to see what is needed and how the council can help.
 10) Anything else?
 Nothing at this time.

 five years and have served on the economic development board since its inception.
 9) How will you address the issue?
 Continue to work with the economic development board exploring new ideas to keep our community strong and research

and evaluate the city's budget practices, including revenues, expenses and capital outlay purchases.
 10) Anything else?
 No

ways to solve the many issues the council deals with.
