Voluntary retirement option offered

The State of Kansas announced a voluntary retirement program that provides incentives for state retirement-eligible employees who offer to retire within the next 45 days.

"Reducing spending through this voluntary retirement incentive program is one method of helping the state live within its means," Governor Brownback said.

Approximately 4,000 employees who are currently eligible for full or early retirement are eligible to retire under the criteria of the program. There are two options for eligible em-

ployees to consider:

1) Post-Retirement Group Health Insurance Coverage: The state will pay the employer's share of the state employee rate for up to 60 months for member-only coverage or up to 42 months for member-plus-dependent coverage - until the employee reaches age 65, whichever comes first.

2) One-time Lump Sum Payment of \$6,500. Eligible employees have until Sept. 2nd to make their offer to retire. Those whose offers are accepted by the state will need to make their last day with the state no later

than Sept. 19.

"This is a voluntary program. The administration will not make any recommendation that an employee choose to offer to retire," Secretary of Administration Dennis Taylor said. "Employees should contact their personal legal and financial advisors about whether to retire and the Kansas Public Employees Retirement System about eligibility concerns."

The state does not expect to replace those who retire, although critical positions may need to be filled to ensure the viability of essential state functions. Those

decisions will be made following the deadline for employees to present their offers to retire.

The program is not available to state employees covered under the Correctional Kansas Public Employees Retirement System plan or the Kansas Police & Fire plan. Nor is it available to Kansas Department of Labor employees whose salaries are not funded by SGF and/or fee funds and employees who have previously retired from the state.

Permanent striping being laid in Norton County

A fast-moving project to place permanent highway striping along routes in Norton, Logan, Decatur, Rawlins, and Sherman Counties is now underway.

Workers with Interstate Road Management Corporation, Peculiar, Missouri, will be placing (or have placed) permanent striping along the following routes: the concrete pavement at the junction of US-36 and US-283 in Norton; the new concrete pavement of US-36 Highway in Oberlin and the intersection of US-36/US-83; the US-36 concrete pavement in Atwood; US-

24 Business, the new concrete pavement and US-24 Business and K-27 Junction in Goodland; US-40 in Oakley from the west US-83 Junction to I-70.

The contractors are tentatively scheduled to be in Goodland on Tuesday, August 23. They then plan to be in Oakley, August 29.

The operation could require a lane closure, causing minimal traffic disturbance.

Please use caution, pay attention to the work zone signs, and respect workers when driving through any road work zone.

Slow down and "Give 'Em A Break".

The estimated cost of the project is \$686,798 - funded by T-WORKS, the transportation program passed by the Kansas Legislature in May, 2010.

Weather permitting, construction work should be complete by early September.

For questions concerning this project, please contact KDOT Area Four Construction Engineer Stuart Withington in Oakley at (785) 672-3113 or mail to: stuartwi@ksdot.org; or Kristen Brands, Northwest Kansas

Public Affairs Manager, at (785) 877-3315 or <mailto:kristenb@ksdot.org> in Norton. Upcoming road construction projects may also be viewed at the newly launched website for T-WORKS at: www.ksdot.org/tworks
