

OBITUARIES

Lorraine Ida Dole June 9, 1926 - Oct. 16, 2011

Lorraine Ida (Larson) Dole, 85, passed away on Sunday, Oct. 16, at the Logan Manor, in Logan. She was born June 9, 1926 on the family farm in rural Decatur County, the daughter of Carl Godfried and Ida Genevieve (Tongish) Larson. On March 23, 1952, she married Robert J. Dole on the family farm where she had been born, and to this union they had four children, Gary, Carl, Rita, and Karen.

Lorraine was a member of the Congregational Church in Almena, Women's American Le-

gion Auxiliary of Almena and the Dietetics Association.

She was preceded in death by her parents and a sister, Bernice Webb.

She is survived by her husband Robert Dole of Logan; two sons, Gary Dole and wife Darla of Norton and Carl Dole and wife Patty of Williamsburg, Ind.; two daughters, Rita Dole of Manhattan and Karen Vogt and husband John of Norton; a brother, Wayne Larson and wife Lois of Oberlin; nine grandchildren and four great grandchildren.

Memorial Services will be held on Friday, Oct. 28, at 11 a.m. at the Almena Congregational Church in Almena, with Pastor Kirk Kasson presiding. Inurnment will be in the Mt. Hope Cemetery in Almena. Memorials may be given to the Second Chance Homeless Pet Society, 13462 U.S. Hwy. 283, Norton, KS 67654 in care of the funeral chapel. For on-line condolences, please visit www.allfaithsfuneralchapel.com. All Faiths Funeral Chapel, 113 S. Madison St., Smith Center, KS is in charge of arrangements.

HANSEN MUSEUM

The Dane G. Hansen Memorial Museum in Logan will host a four-day painting workshop with Master Pastelist Kaye Franklin on Nov., 2-5. Franklin instructed an oil and pastel class at the Museum in 2003, 2004, 2006, 2007, 2008, 2009 and 2010 and has been asked to return by popular demand.

She began her art career in 1975 while living in Pagosa Springs, Colo. She and her family moved to Graham, Texas in 1979 and it was then that she began a serious quest for the best schools and instructors. Franklin studied at the Scottsdale Art-

ist School and with Connecticut artist William Henry Earle. Her pursuit of excellence has won her the deepest respect of her students, peers and serious collectors. She has received many national awards and honors that have culminated in her recognition as master pastelist, and her election to signature membership in the Pastel Society of America and Oil Painters of America. Kaye has taught in Canada, Mexico, England, France, Spain, Italy and the Pacific Northwest. She has been featured in numerous publications including American Art-

ists magazine and Best Pastels.

The elements in her artwork consist of light, color and focal point. She likes working with both pastels and oils. Pastels show immediate results and they stay brilliant; oils allow you to create new colors from existing pigments. Instruction will consist of both the use of oils and pastels on varied subject matter. Classes will be held on Nov. 2-5, from 9 a.m.-noon and 1-4 p.m., in the Hansen Plaza Community Room, 110 West Main, Logan. Intermediate to advanced artists may register. Call 785-689-4846 for more information.

The joy of painting

A Joy of Painting class was offered this weekend at the Hansen Museum in Logan. Instructors Sandy Seamone and TR Mathews offered the two day classes. They have been doing this for 21 years and this was the 15th time at the Museum. Seamone said, "This is such a wonderful facility, it really supports the community. We try to push the participants more than they think they can do sometimes." Artists, Karen Madorin of Ellis, Sandy Burnham of Arkansas, Valerie Babcock of Norton and Sidonia Babcock of Beaver City, Neb. were excited to take the class the first day.

Put your garden to bed for the winter

By Kay Melia

Alright, here's what I want you to do. Next time you go to the store, buy a box of those big 10 gallon black plastic trash bags. You know, the ones with the red, blue, or yellow drawstrings that you see in the picture on the box. Try your best to avoid those bags with no drawstrings, even though they're a little cheaper, because you're going to need the bags with drawstrings for this project.

When you get home, find your rake, and go out and rake your leaves. If your leaves are just lying there on your lawn, put the bag on the mower and pick up the leaves in that manner, being careful not to pick up locust bean pods, small tree limbs, and children's toys. When the mower bag is filled, empty the contents into one of those 10 gallon trash bags you just bought. Fill as many bags as you possibly can, and then offer to pickup the leaves in your neighbor's yard and fill a few more bags. Store those bags of leaves in the garden shed, garage, or barn, or just stack them out by the back fence.

Then go to the phone and call the guy who takes care of lawns for some of the town's residents and ask him if he would mind hauling his next load of leaves over to your house and dump them on your garden plot. First

chance you get, scatter that load of leaves evenly over the garden and plow them under, as deeply as you can. Or call the kid down the street who owns a roto-tiller and have him do the job for you.

Wow! You have your garden put to bed for the winter, plus you have 10 or 12 bags of nice clean leaves stored away to use for mulching next spring's crop of potatoes, cucumbers, and tomatoes! Actually, you're way ahead of most of us who may still be waiting for the leaves to fall. The timing of the above procedure can vary from 10 to 20 days and still achieve the same result.

But do it! If not next week, then anytime before the ground freezes, which is generally sometime between Dec. 10th and 20th in our area. Plowing under leaves in your garden in the fall does so much to add to the texture of the soil in which you will entrust your seeds next spring. You'll be amazed at the new workability. It doesn't have to be leaves...any kind of mate-

rial such as straw, old hay, or dry manure plowed into your garden this fall will biodegrade during the winter months due to the freezing and thawing process. The job needs to be done just as soon as you can clear your plot of the old tomato vines, the corn stalks, and the expired squash vines. Burn the old tomato vines, or haul them to the landfill. But run the mower over the rest of the material including the cornstalks, and then plow it under when you can.

Everyone's garden soil must be regenerated annually in order for us to realize a bumper crop next season.
