Lakes added to advisory list

The Kansas Department of Health and Environment samples recreational bodies of water for cyanobacteria, commonly called blue-green algae, when the agency is alerted to a potential algae bloom.

The department reminds visitors that when a lake is under an Advisory or Warning, marinas, lakeside businesses and park camping facilities remain open for business, although swim beaches will be closed. Park drinking water and showers are safe and not affected by the algae bloom. Also, it is safe to eat fish caught during a harmful blue-green algae outbreak, as long as consumers clean and rinse the fish with clean, potable water; consume only the fillet portion; and discard all other parts.

WARNING Status: High levels of toxic blue-green algae have been detected. A Public Health Warning indicates that water conditions are unsafe and direct water contact (wading, skiing and swimming) is prohibited.

Kansas public water currently under a "Warning" status: Memorial/Veterans Lake - Great Bend, Barton County
When a Warning is issued, the department recommends the

following precautions be taken:
-Humans, pets and livestock do not drink lake water
-Water contact is prohibited. Avoid swimming, wading or other activities with full body contact of lake water

-Clean fish and rinse with clean water, consume only the fillet portion, and discard all other parts

-Do not allow pets to eat dried algae

-If lake water contacts skin or pet fur, wash with clean potable water as soon as possible

-Avoid areas of algae accumulation

ADVISORY Status: Harmful blue-green algae have been detected. A Public Health Advisory indicates that a hazardous condition exists. Water activities like boating and fishing may be safe; however, direct contact with water (i.e., wading, swimming) is strongly discouraged for people, pets and livestock.

Kansas public waters currently under "Advisory" status: Lovewell Reservoir, Jewell County

Milford Lake, Geary, Riley and Clay Counties
Overland Park South Lake, Johnson County
Logan City Lake, Phillips County
Old Herington City Lake, Dickinson County
Marion Reservoir, Marion County
Marion County Lake, Marion County
Winfield City Lake, Cowley County

The department recommends the following precautions be taken:

-Humans, pets, and livestock do not drink untreated lake water

-Clean fish and rinse with clean water, consume only the fillet portion, discarding other parts

-Do not eat or allow pets to eat dried algae

-If lake water comes in contact with skin or pet fur, wash with clean potable water as soon as possible

-Avoid areas of visible algae accumulation

Visitors at my home have been Carol Moye and great-granddaughters. They played with the dog and Kylie pulled Skylar in the wagon. We had some of Denny's birthday cake, brought to him by Kimber Robinson. Other guests have been Brandy Cohart, Tielia High and her children, Emily, Mariah, Garrett and Grant. I succeeded in getting the kids to try gooseberry pie and three out of four liked it. It was a big favorite of their grandpa.
