Shirk is an Exercise Science/Pre-Physical Therapy major.

The Dane G. Foundation of Logan, has named 260 high school seniors from 59 Northwest Kansas schools as winners in its 38th annual scholarship competition. In addition, 12 scholarships have been awarded to Kansas Community or Technical College transfer students who are planning to continue their education at a Kansas four-year college or university.

In selecting award winners, the Scholarship Committee considered proficiency in verbal and writing skills. Other important factors are academic records, test scores, and community service in which the student may have participated.

Fifty Hansen Scholar winners were selected. The stipend of \$4,000 was granted for one year and may be renewed for one additional year. Renewal of scholarships is based upon continued regard for the principles, which guided the success of the late Dane G. Hansen, a 3.00 or better grade point average at the college level and a letter describing progress towards educational goals. This year's area winners include:

cate increasing numbers of Kansans," President Hammond said. "We have 6,625 Kansans enrolled this spring, an increase of 425 students, or 6.9 percent, from 6,200 a year ago. In 2010, we had 5,958 Kansans enrolled in FHSU classes. So just in the past three years, the number of Kansans enrolled at FHSU has increased by 667 students, or 11.2 percent."

Hispanic enrollment has been an area of emphasis for the Kansas Board of Regents. President Hammond noted that the number of Hispanic students enrolled at FHSU grew to 736 this spring compared to an even 700 in spring 2012, an increase of 5.1 percent.

The number of students who identify themselves as African-American also continues to trend upward, with 362 this spring compared to 308 in spring 2012, an increase of 17.5 percent.

Growth also continues to be strong in the Graduate School. The total number of graduate students is 1,922 this spring compared to 1,680 in spring 2012, which is an increase of 242 students, or 14.4 percent. Much of that growth was on campus. There are 468 graduate students in Hays this spring compared to 415 in spring 2012, which is an increase of 53 students, or 12.8 percent.

"It is nice to see increases every year thanks to the hard work by our faculty and staff," said Linn, who oversees enrollment management. "We are able to maintain the high quality of education at FHSU because everyone is willing to step up and do what needs to be done to serve these larger numbers of students."

Just kickin' it
