Dorshorst's mother, Patricia, volleyball coach the past 22 years for Oberlin, groomed her to follow in the footsteps of her older sister, Danielle, who also played volleyball for the Lady Red Devils graduating in 2002.

Dani, as Oberlin fans knew her, currently teaches science and coaches volleyball in Sidney, Neb.

"I became interested in volleyball, because it looked fun," said Dorshorst. "Over the years, I learned the timing of jumping and hitting and working with my teammates as a team which helped us this past year when we won the league with a 31-0 record and went to the state play-offs.

"If I had only one thing to say to younger girls that want to excel in athletics, I would tell them that bigger, faster, and stronger is the secret to sports. My sister started working with me in the weight room in the seventh grade." She explained, "In volleyball you have to act bigger than your opponent at the net. You must be faster than them in digging a ball and stronger than them to hit the ball down.

"I think fifth grade is about the best time to start learning how to play sports," she said. "You have to enjoy sports, and about fifth grade is when you start developing the muscle strength to get the ball over 'One thing I would like to see is

Motor vehicle crashes are the No. 1 killer of teens.

A bill that is before the Kansas House Transportation Committee right now could change that. This bill proposes to strengthen our novice. graduated driver system (GDL) of licensing.

Why is improving our novice driver

- licensing system so important?
- Vehicle crashes are the No. 1 killer of teens.
 80 deaths, 7,000 injuries and 16,000 accidents per year means nearly \$630 million
- in accident costs for Kansans. Kansas is one of only five states without
- an intermediate stage of licensing between a permit stage and full-privilege licensing.
- Six out of 10 Kansans killed in crashes involve
- 15- to 17-year-old drivers. The greatest risks to novice drivers are driving at night and distractions of other young
- What will the proposed system do?
- Provide a one-year, adult-supervised driving period, which is proven to significantly reduce

crashes in other states by 25% to 50% Provide a six-month intermediate stage that

and limits the number of non-sibling passengers

- under the age of 21 to one passenger. · Maintains the current Farm Permit.
- · Restricts the use of wireless communication devices by novice drivers.

More than 95% of parents — and most teens — that have experienced this GDL system in other states approve of it. It's time for Kansas to join the rest of the nation in protecting our novice drivers and giving parents the tools they need.
